BAY STATE PRIMARIES.

Principal Contest Is for Democratic Nomination for Governor.

BOSTON, Sept. 24.—At the Massachusetts

BELL-ANS FOR INDIGESTION

chusetts primaries being held today, the principal contest was for the Democratic nomination for Governor. Three candidates were in the field: Edward J. Barry, former Lieutenant Governor; William A. Gaston, a banker; and Richard H. Long, a shoe manufacturer.

On the Republican side the contest for the Lieutenant Governorship nomination was expected to be close. The candidates were Channing H. Cox, Speaker of the House of Representatives and Guy Andrews Ham, former member of the Governor's Council. For the first time, the Socialist Party was officially recognized and had a nominee for Governor.

Auto Kills Canadian Officer.

CHICAGO, Sept. 24.—After spending three years in the trenches with the Canadian Expeditionary Force, Sergeant Joseph H. Stokes on leave from the Canadian Army was killed by an automobile here last night.

FUEL ORDER BARS USE OF ANY COAL IN COUNTRY CLUBS

Thousands of Tons Will Be Saved Here Between December and April.

Golf and country clubs must discontinue the use of coal between Dec. 1, 1918, and April 1, 1919, the Fuel Administration has ruled. It makes no difference whether people live in clubhouses and country clubs classed as community clubs, form no exception to the rule. State and county Fuel Administrators have no authority to exempt any one from the order.

Permits to use quantities of coal for the comfort of regular employees of such clubs can be obtained from the United States Fuel Administration at Washington upon receipt of a certificate of necessity from the State Fuel Administrator. Such certificates will be scarce in New York State, it was said, because State Fuel Administrator D. W. Cooke and Chief of Conservation Mercer P. Moseley realize that a great many country clubs are under their jurisdiction and that several thousand tons of coal can be saved by cutting off the supply.

C. A. Graves has been appointed Administrative Engineer for New York State. He was formerly Assistant Administrative Engineer in charge of the New York Metropolitan District and is President of the Graves Engineering Company. Formerly he was tower engineer for the Edison Electric Illuminating Company of Brooklyn.

LONE BANDIT ROBS TRAIN.

Rifle Registered Mail Pouches on the Great Northern.

SEATTLE, Wash., Sept. 24.—Great Northern train en route from Vancouver, B. C., to Seattle, was held up last night by a bandit near Mukilteo, according to reports reaching here and several thousand dollars in registered mail stolen.

Advices said the bandit rifled the mail car of some registered mail pouches, forced the train crew to uncouple the engine and then carry him to Meadowdale, where he escaped.

BICYCLE MAKING REDUCED

Manufacture of Racing and Juvenile Models Is Discontinued.

WASHINGTON, Sept. 24.—Curtailement of the manufacture of bicycles and accessories was announced today by the War Industries Board. Men's bicycles are to be made hereafter only in twenty and twenty-two inch frames and women's models only in twenty inch frames.

Manufacture of racing and juvenile models, steel guards, tool boxes, metal stands and metal tanks is discontinued entirely.

FEDERAL PACKING CONTROL HELD TOO BIG A WAR TASK

Congress Said Virtually to Have Abandoned U. S. Taking Over Meat Business.

WASHINGTON, Sept. 24.—In seeking means to relieve the American people from the high cost of living Congress has virtually abandoned the idea of putting the meat packing business under Government control while the war lasts.

Many Congressional students of the

problem agree that to add this enterprise now to the multitude of huge new tasks Uncle Sam has undertaken might defeat the very purpose they have in mind. They will, however, relinquish their adherence to the principle of Government control of stock yards and packing houses.

It is deemed unlikely that President Wilson will recommend legislation for Government control of either stock yards or packing houses now, as a result of his study of the Federal Trade Commission's recommendation.

While the Senate Agriculture Committee is ostensibly conducting hearings on the Thompson resolution for Government control of the meat industry, it is unlikely that the resolution will be brought to a vote this session. The committee today was to hear Harry A. Wheeler, President of the Chamber of Commerce of the United States.

CAN'T FIND DANDRUFF

Every bit of dandruff disappears after one or two applications of Danderine rubbed well into the scalp with the finger tips. Get a small bottle of Danderine at any drug store for a few cents and save your hair. After several applications you can't find a particle of dandruff or any falling hair, and the scalp will never itch.
